Volume 9 1983 Table of Contents

No. 1 Therapy of Leukemia (II): New Approaches

pp. 1–174 issued on April 27, 1983

1. Evaluation of Therapeutic Outcome

E.J. Freireich: Methods for Evaluating Response to Treatment in Adult Acute Leukemia 5
Discussion 19

J.R. Kettman, R.G. Smith, J.W. Uhr, E.S. Vitetta, R. Sheehan, F.S. Ligler, E.P. Frenkel: Quantitative Monitoring of Lymphoid Malignancies: Application and Findings in Chronic Lymphocytic Leukemia 21
Discussion 32

B. Barlogie, A.M. Maddox, D.A. Johnston, M.N. Raber, B. Dewinko, M.J. Keating, E.J. Freireich: Quantitative Cytology in Leukemia Research 35
Discussion 53

D.W. Ross: Unbalanced Cell Growth and Increased Protein Synthesis Induced by Chemotherapeutic Agents 57
Discussion 65

2. Non-Conventional Approaches

Jean Bernard, M. Bessis: Unexpected Remissions in Acute Leukemia . . 71

M. Bessis, Jean Bernard: Remissions after Exchange Transfusions in Acute Leukemia. On the Possible Antileukemic Properties of Normal Blood. Historical Notes and Recent Reflections 75
Discussion 79

H.E. Broxmeyer, P. Gentile, J. Bognacki, P. Ralph: Lactoferrin, Transferrin, and Acidic Isoferritins: Regulatory Molecules with Potential Therapeutic Value in Leukemia 83
Discussion 102

E.P. Cronkite, R.C. Fairchild, M.E. Miller: Are There Unexploited Possibilities for the Therapeutic Use of Radioactive and Stable Isotopically Labeled DNA Precursors and Extracorporeal Irradiation of the Blood in Treatment of Leukemia? 107
Discussion 121

M.A.S. Moore, J. Gabrilove, A.P. Sheridan: Therapeutic Implications of Serum Factors Inhibiting Proliferation and Inducing Differentiation of Myeloid Leukemic Cells 125
Discussion 136

General Discussion 139

Free Communications

L.S. Sewchand, C.S. Johnson, H.J. Meiselman: The Effect of Fetal Hemoglobin on the Sickling Dynamics of SS Erythrocytes 147

E.P. Orringer: Commentary 161

L.S. Sewchand, C.S. Johnson, H.J. Meiselman: Answer to Commentary 165

Letters to the Editor

P.A. Santillo, M.A. Lichtman: Holey Red Cells: A Brief Note 169

B.S. Bull: Commentary 173

No. 2 Bernard – Soulier Syndrome and Cell Adhesion Pathology

pp. 175–406 issued on November 30, 1983

1. Historical Annotations

J. Bernard: History of Congenital Hemorrhagic Thrombocytopathic Dystrophy 179
Discussion 191

2. General Mechanism of Cell Adhesion

P. Sträuli, G. Haemmerli: Cell Adhesion: A General Appraisal . . . 197
Discussion 202

B. Öbrink, C. Ocklind: Cell-Cell Recognition: Relation to Cell Adhesion with Special Reference to Adhesion of Hepatocytes 209
Discussion 216

J.L. Wautier, M.P. Wautier, D. Pintigny, F. Galacteros, A. Courillon, P. Passa, J.P. Caen: Factors Involved in Cell Adhesion to Vascular Endothelium 221
Discussion 229

3. Platelet Membrane Glycoprotein

J.G. White: Ultrastructural Modifications in Platelet Membranes and Cytoskeleton Following Activation 237
Discussion 258

Y.J. Legrand, A. Karniguian, F. Fauvel, N. Gutman: The Molecular Interaction Between Platelet and Vascular Wall 263
Discussion 274

J. Breton-Gorius, D. Vanhaeke, A. Tabilio, W. Vainchenker, J.F. Deschamps, F.S. Xu: Glycoprotein I Identification During Normal and Pathological Megakaryocytic Maturation 275
Discussion 288

T.J. Kunicki, D.J. Christie, R.H. Aster: The Human Platelet Receptor(s) for Quinine/Quinidine-Dependent Antibodies 293
Discussion 300

H.C. Hemker, J.L.M.L. van Rijn, J. Rosing, G. van Dieijen, E.M. Bevers, R.F.A. Zwaal: Platelet Membrane Involvement in Blood Coagulation . 303
Discussion 315

K.J. Clemetson: Platelet Membrane Glycoprotein I: Structure and Function. The Domain of Glycoprotein I Involved in the von Willebrand Receptor 319
Discussion 327

4. Platelet Physiology in Bernard – Soulier Syndrome

A.T. Nurden, D. Didry, J.P. Rosa: Molecular Defects of Platelets in Bernard-Soulier Syndrome 333
Discussion 354

M.M. Frojmovic, J.G. Milton: Physical, Chemical and Functional Changes Following Platelet Activation in Normal and "Giant" Platelets 359
Discussion 380

M.C. Bryckaert, C. Ruan, G. Tobelem: The Domain of Platelet Glycoprotein I as Recognized by Various Antibodies, Both Monoclonal and Polyspecific 383
Discussion 386

J. Caen, S. Bellucci: The Defective Prothrombin Consumption in Bernard-Soulier Syndrome. Hypotheses from 1948 to 1982 389
Discussion 395

General Discussion 401

No. 3 Free Communications

pp. 407–534 issued on December 31, 1983

C.J. Haller, J.M. Radley: Time Lapse Cinemicrography and Scanning Electron Microscopy of Platelet Formation by Megakaryocytes 407
J.G. White, Commentary 419

K. Kon, S. Noji, H. Kon: Spin Label Study of Erythrocyte Deformability. III. Further Characterizations of Electron Spin Resonance. Spectral Change in Shear Flow 427
K. Washington, D.A. Gabriel: Commentary 439
K. Kon, S. Noji, H. Kon: Answer to Commentary 441

S.E. Malawista, A. de Boisfleury-Chevance, R. Maunoury, M. Bessis: Heat as a Probe of Centrosomal Function: A Phase-Contrast and Immunofluorescent Study of Human Blood Monocytes 443
P. Dustin, Pericentriolar Material and the Action of Heart on Microtubules. A Commentary 449

G. d'Onofrio, R. Mancini, R. Vallone, G. Alfano, A. Candido, M. Palla, G. Mango: Acquired Neutrophil Myeloperoxidase Deficiency: An Indicator of Subclinical Activation of Blood Coagulation? 455
J. Herion, D.W. Ross: Commentary 465

R. Schofield, L. Lajtha: Determination of the Probability of Self-Renewal in Haemopoietic Stem Cells: A Puzzle 467
H.E. Wichmann, M. Loeffler: Probability of Self-Renewal: Assumptions and Limitations. A Commentary 475

S.P. Sutera, R. Tran-Son-Tay, C.W. Boylan, J.R. Williamson, R.A. Gardner: A Study of Variance in Measurements of Tank-Treading Frequency in Populations of Normal Human Red Cells 485
B.S. Bull: Commentary 497

S.P. Sutera, R. Tran-Son-Tay, C.W. Boylan, J.R. Williamson, R.A. Gardner: Answer to Commentary 499

T. Takubo, Y. Kubota, S. Oguma, T. Ueda, H. Shibata, H. Nakamura, T. Masaoka, J. Yoshitake, S. Ishigami: Classification of Acute Non-Lymphocytic Leukemia According to the Distribution Picture of Peroxidase Activity and Cell Size: Correlation Between the Classification and Therapeutic Response 501
D.W. Ross: Non-Morphologic Classification of Leukemia. A Commentary 513

N.S. Wolf, J.R. MacMillan, G.V. Priestley: Decline of Colony-Forming Units with Serial Bone Marrow Cell Passages: Intrinsic or Extrinsic Causation? 515
H.S. Micklem: Commentary 527
N.S. Wolf: Answer to Commentary 533
